

FISCAL MEMORANDUM

SB 1152 – HB 1204

May 8, 2007

SUMMARY OF AMENDMENT (006745): Rewrites the Tennessee Tollway Act (TTA) by adding new language concerning (1) the economic, social, and environmental effects of any such tollway project, (2) the issuance, terms, and securitization of bonds related to any such tollway project, and (3) authorizations and/or powers granted to the Department of Transportation and to the State Funding Board.

FISCAL IMPACT OF ORIGINAL BILL:

Other Fiscal Impact – The fiscal impact of this bill is relative to the period of time considered. Over long periods of time (typically 20 to 30 years), the type of capital projects identified in this bill are expected to be revenue generators for the state or self-supporting at a minimum in that revenues would offset expenses incurred. Over shorter periods of time (1 to 5 years), state expenditures are expected to increase significantly relative to any increase of state revenues. Determining the extent of such shorter-term impacts is dependent upon several unknown factors such as the number of projects that will be undertaken, the scope and timing of such projects, the extent of funding acquired by the state as the result of any subsequent bond issues or federal funding, and toll revenue expectations. As a result, determining a precise fiscal impact for this bill is difficult. However, the increase to state expenditures is reasonably expected to exceed any increase of state revenues by \$1,000,000 or more in each of the first three years for any such project undertaken.

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

Unchanged from original fiscal note

Assumption applied to amendment:

- The estimated fiscal impact of this bill as amended is unchanged from the original fiscal note because the expectation for state expenditures and state revenues occurring as a result of any such tollway project undertaken remains unchanged.
